

UX/UI CASE STUDY 2026

On Track

Stay Focused. Achieve More.

AI Productivity App for Students

project overview

The concept behind OnTrack is to unify multiple productivity tools into one seamless experience. Instead of switching between apps for tasks, timers, and motivation, students can rely on a single platform that integrates task management, focus sessions, AI guidance, and gamification to support their academic journey.

The Problem

People aged 12–40 often struggle with time management, distractions, low motivation, and organizing daily tasks efficiently, which affects their productivity and focus.

The Goal

The goal of this project is to create a simple and motivating productivity app that helps users aged 12–40 manage tasks, stay focused, reduce distractions, and build better daily habits.

Target Audience

Individuals aged 12–40 who want to improve productivity, manage daily tasks, stay focused, and build better habits in their study, work, or personal life.

Market Research

Understanding the current productivity market and student needs

Productivity Growth

The demand for productivity and focus applications continues to grow among students and remote learners.

Common Challenges

Many students struggle with distraction, task overload, and complicated productivity tools.

Market Opportunity

There is an opportunity to create a focused and user-friendly experience that helps students stay organized and motivated.

5W Analysis

5W Analysis

who

Ages 12–40—students, young adults, and professionals—struggling with time management, productivity, and healthy routines.

when

Used throughout the day — before classes, during breaks, after school, while studying, and before sleep.

where

Used across various environments such as home, school, study centers, sports clubs, or on the go.

why

Students often face poor time management, low motivation, and unhealthy habits. Boost Me helps them balance study, health, and personal life effectively.

what

A gamified, AI-powered mobile app that generates personalized schedules, tracks habits, promotes healthy behaviors, and rewards user progress.

Key Attributes

OnTrack is built around core attributes that help users stay organized, focused, and consistently productive every day.

Stakeholder Interview

1. Strategy & Vision

- What problem does the app solve, and for whom?
- How will the app's success be measured?

2. Users & Targeting

- Who are the main users, and what challenges do they face?

3. Product & Experience

- What are the key MVP features?
- What kind of user experience and behaviors should the app encourage?

4. Growth & Retention

- What would make users continue using the app over time instead of abandoning it?

5. Constraints & Risks

- What will keep users engaged over time?

User Interview Questions

For teenagers aged 12–17

1. What does your typical day look like?
2. What's hardest about managing your time?
3. How do you organize homework and tasks?
4. What usually distracts you?
5. Have you used productivity apps before? How was the experience?
6. What helps you stay consistent with habits?
7. What would you like to improve in your daily life?
8. What would make you use an app every day?
9. How do you prefer reminders or notifications?
10. What annoys you most in other apps?

For aged 15–25

1. What does your daily routine usually look like?
2. What are your biggest challenges in managing time or sticking to routines?
3. How do you currently organize tasks and schedules?
4. What distracts you most during work or daily tasks?
5. How do you feel about productivity or time-management apps?
6. What helps you stay committed to habits long term?
7. What habits would you like to improve?
8. What type of reminders or notifications do you prefer?

survey

How do you currently manage your daily schedule?

What are your biggest challenges in managing your time?

How often do you forget tasks or deadlines?

What motivates you to stay consistent?

Do you want an app that combines study + habits + motivation

Pain Points

1

Impact 1

- Users feel overwhelmed managing multiple tasks across different platforms.

2

Impact 2

- Difficulty staying consistent with daily habits and routines.

3

Impact 3

- Lack of motivation due to limited progress visibility.

4

Impact 4

- Existing apps are too complex or cluttered, leading to frustration.

User Personas

Sarah Adel

Age: 24

LOCATION: Cairo city

Devices: Smartphone, Laptop

Jop: Student + Freelance Designer

Tech Level: Intermediate

Bio

Sarah is a 24-year-old graduate student and junior UI/UX designer. She balances studying, freelance work, and personal life, but struggles to stay organized and consistent.

Frustrations

Gets distracted بسهولة من الموبايل والسوشيال ميديا
Difficulty sticking to routines
Forgets tasks and deadlines
Feels overwhelmed with too many tasks

STORYBOARD

— A day with On Track —

So many tasks and so little time...
I don't even know where to start.

I found On Track!
Let's give it a try.

I set my goals and On Track
creates a personalized plan for me.

On Track plans my day smartly
so I can focus on what matters.

Completing tasks and building habits
earns me points and keeps me motivated!

On Track helps me stay consistent,
achieve my goals, and live a balanced life.

♥ On Track is more than an app, it's my road to a better me. 📍

SWOT ANALYSIS

STRENGTH

- Combines planning + habits + gamification in one app
- AI-powered personalized schedule
- Simple and engaging user experience
- Motivating reward system

WEAKNESS

- May feel complex for new users at first
- يعتمد على إدخال المستخدم للبيانات بشكل صحيح
- ممكن ما تناسب كل المستخدمين Gamification
- محتاج onboarding واضح

OPPORTUNITIES

- Growing demand for productivity & self-improvement apps
- إمكانية إضافة features زي:
- Social challenges
- Community support

THREAT

- منافسة قوية من apps زي
- Todoist
- Habitica
- ممكن تزعج Over-notifications
- المستخدم
- Privacy concerns (AI خصوصًا مع)

Card Sorting

Check Usability

Conducted usability testing with users to evaluate the app's navigation, accessibility, and overall user experience. The testing focused on task completion, ease of use, and user satisfaction.

Improvements

Simplified the task creation process

Improved button visibility and spacing

Enhanced navigation clarity

Added clearer labels and onboarding hints

Optimized the visual hierarchy for better usability

Survey Insight

.Most users found the interface simple and easy to navigate

.Users liked the AI Chat feature the most

Some participants felt the task creation flow had too many steps

.Users preferred clear progress tracking and rewards motivation

.Focus Mode helped reduce distractions during studying

Design Iterations

User feedback helped refine OnTrack into a simpler and more intuitive experience.

Every change we make is based on real users.

WE LISTEN
to user feedback

WE ANALYZE
the pain points

WE IMPROVE
the experience

WE CREATE IMPACT
for students.

01 Simplified Dashboard

The dashboard was cluttered and overwhelming.

BEFORE

AFTER

Cleaner layout and clearer hierarchy to focus on what matters.

02 Stronger Focus CTA

Users didn't notice the focus action quickly or used it inconsistently.

BEFORE

AFTER

Made the primary focus action bold, visible, and irresistible.

03 Better Task Management

Managing tasks was not easy when the list was too long.

BEFORE

AFTER

Grouped tasks by priority and collapsed others.

Final Solution Impact

OnTrack helps students stay focused, organized, and motivated through a simple productivity experience.

Designed to help students achieve more, stress less, and become their best version.

Mental Clarity

Users feel less overwhelmed with a clear plan and priorities.

Better Focus

Focus sessions and distraction blockers help users stay in the flow.

Consistent Growth

Streaks, reminders, and progress tracking encourage daily consistency.

Smarter Productivity

AI Coach provides personalized insights and recommendations to work smarter.

The impact OnTrack creates in users' daily lives

89%

felt more organized after using OnTrack

76%

improved focus during study time

71%

built more consistent daily habits

92%

would recommend OnTrack to others
