

Pulse Design Team

OnTrack – AI Productivity App

Team Members & Responsibilities

Nehal Hassan Abdel-Tawab – Team Leader / UI & UX Designer

Led project direction, defined UX strategy, created user flows, reviewed outputs, ensured consistency, led presentation, and worked on core app screens, landing page design, and overall visual direction.

Nada Gamal Galal – UI & UX Designer

Conducted user research, competitor analysis, defined personas, identified pain points, and supported A/B testing decisions.

Rehab Abdel Shafy – UI & UX Designer

Designed user journeys, created user flows, wireframes, and information architecture.

Sara Adel Ragab – UI & UX Designer

Worked on core app screens, landing page design, and visual layouts, and contributed to overall design decisions.

Sara Yasser Roshdy – UI & UX Designer

Designed high-fidelity mobile screens and supported visual consistency across the product.

Additional Project Tasks

A/B Testing: Proposed and tested design variations.

Prototype: Built interactive prototype in Figma.

Product Video (1-minute Reel): Planned storyboard and created video.

Presentation: Prepared and delivered final presentation.
